

# Welcome to the woods!

Are you curious about the Swedish nature?

Welcome to discover Omberg Ecopark together with the Scouts and Sveaskog on the 8th of September!

We invite you to an introduction to the forest, nature and outdoor life. We will show you what you can discover in the woods, what you can and can not do in nature, which plants, herbs and mushrooms you can eat and much more. You will be able to try how to make a fire, tie knots, put up a wind breaker, go hiking, play games with your entire family and other funny things. And of course we will invite you to the camp fire to grill a hot dog and have popcorn with us!

During the day you will be able to test the Swedish way of scouting. With us you experience adventure in the woods, meet friends, discover new ways of solving problems and just having fun together!
